Our school initiatives are on track to meet or exceed our targets

During 2017, we focused on maximising the benefits of this funding for our students. After reviewing our 2017 *Investing for Success* agreement, it is clear that we are on track to meet or exceed our targeted student outcomes. We continue to implement our initiatives to ensure that every student succeeds.

Strategies implemented include:

- Reviewing student performance data fortnightly for at risk students and every 5 weeks for all students.
- Implementing intensive research-based reading intervention support programs for identified students.
- Continuing to enhance our school's current P-3 Reading Program based on the explicit teaching of Phonemic Awareness, Phonics, Fluency, Vocabulary and Comprehension.
- Focusing on the explicit teaching of comprehension strategies for fiction and in particular non-fiction/informative texts.
- Reviewing and refining the school Mathematics Program with a focus on enhancing the explicit teaching of core concepts and skills.

The following targets were achieved:
