

Lockdown/Quarantine Scenario Plan – 2022

A number of scenarios may occur around COVID-19 related lockdown or quarantine measures. In the event that home learning is required for a period of time, all affected families will be notified electronically by the school.

If a lockdown or quarantine is directed, teachers in the affected year levels will move to a home learning delivery model within 2 days. Goondi State School EdStudios will be activated in each affected year level and all students in that year level will be given access via an ‘access key’ number specific to that grade. The EdStudios will be populated by teachers with the resources required to learn at home in each subject. All materials will be available for download and printing at home. Support will be provided for families unable to access these resources.

Each class teacher will communicate with families through the ‘ClassDojo’ app which parents/carers can download directly to their smartphone and whole school messages will be sent via SMS.

****Should a lockdown be announced prior to the start of the 2022 school year, all parents will be advised through existing electronic communication methods (SMS and Facebook page)**
